Who are arla

- Love Hörnquist Åstrand
- Tomas Olsson

Releases

- Three releases in the past year
- 0.41 to 0.43

Release 0.41

- Support for Mac OS 10.4/Tiger
- Make directory handling more trusting of the file-server (corrupted directories)
- Support GETVCXSTATUS2, exposes caller access rights to user-land

Release 0.42

- Vnode locking fixes for FreeBSD
- Emulate rename between same-cell volumes by doing copy+remove
- Added support for Mac OS X Universal Binaries
- Better support for Finder and file locking on Mac OS X

Release 0.43

- Access control for `fs setcacheparms`
- Support OpenBSD 3.9
- Support 64-bit files on 32-bit systems
- Arlad now binds to random port if the default is busy

Supported platforms

- Linux
- Mac OS X
- NetBSD
- OpenBSD
- FreeBSD

Work in progress

- Block cache in progress
- Passes fast regression tests

Future work

- block-cache performance
- rxgk
- rxtcp
- no cache arla-cli
